

Superreel® - Industrial Reel

Hydraulic hose reel

Hydraulic hose reels are the perfect solution to facilitate the transmission of power to your hydraulic tools wherever they are needed. With our diversity of mounting options and reel configurations, you can mount our hydraulic reels practically anywhere; from mobile applications to stationary sites – to help you get the job done in a variety of scenarios.

We also offer Multi-line hydraulic hose reels. Ideal for kinds of Cranes and forklifts, narrow double post and high-capacity design, made for your special application in the field of hydraulic use.

Reels are perfect for operating hydraulic cylinders, tools and equipment. All-steel body is compact for easy use in tight work areas. Heavy-duty reinforced steel stamped guide arm. Permanently lubricated reels for long life.

OUR CAPABILITIES

- Ultra-high pressure and high current, the highest pressure of gas and liquid up to 80-100MPA. Taking advantage of the National New Energy Policy, the maximum current of the DC charging reel can reach to 500A.
- Super-long. Spring-driven reels can handle hoses or cables up to 50 meters. Motor-driven reels' capacity up to 3000 meters.
- Engineering reciprocation. One of the few domestic manufacturers that can produce reciprocating hose reels and multi-line hydraulic reels.
- Smart reels with intelligent functions. Limit, feedback, measurement, remote control, APP control, adaptive control and other functions are used in our reels.

Superreel® - Industrial Reel

- Hose and cable combined reels. One reel can manage/ transmit media including acousto-optic signals, various gas-liquid media, etc, at the same time.
